

Pre-Launch Website Checklist

- Get web hosting & domain.
- Add theme, plugins, and configure site settings.
- Design logo and visuals.
- Create pages - Home, About, Articles, Privacy Policy, and any others.
- Check design for user-friendliness, mobile optimization, and speed.
- Claim social accounts.
- Set up Mailerlite email account and email signup forms on site.
- Write first posts and publish them.
- Set up Rank Math and add sitemap to Google Search Console
- Launch and share on social media. Be patient as traffic comes in.
